

Basic Pneumatic & Electro-Pneumatic Trainer

PEPT-2000

EDU-LABS

System design to teach student for demonstrating basic pneumatic and electro-pneumatic training by using high quality industrial grade components.

The Systems consist of :

1. 2 units double acting cylinder Module
2. 1 unit filter regulator with Gauge Module
3. 1 unit 3/2 way valve selector type Module
4. 2 unit 3/2 way valve push button actuated Module
5. 2 units 3/2 way valve roller Module
6. 1 unit 5/2 way valve single pilot Module
7. 1 unit 5/2 way valve double pilot Module
8. 1 unit 5/2 way valve single solenoid Module
9. 1 unit 5/2 valve double solenoid Module
10. 4 units flow control valve Module
11. 4 units sensor Module
12. 1 unit relay c/w base Module
13. 1 unit timer c/w base Module
14. 4 units switches (Selector / Push / Normally Close / Normally Open) Module
15. 1 unit Pilot Lamp (Red & Green) Module

Accessories

1. 4 mm pneumatic hose (35cm x 10 pcs)
2. 6 mm pneumatic hose (10cm)
3. 2 units T connector
4. Training & Experiments Manual
